**Subject:** EPA's proposal for changes to the agricultural Worker Protection Standard  
**Date:** Wednesday, May 22, 2013 1:20:16 PM

---

Michael, would you please forward this message, as appropriate?

First, thank you for your comment related to the number of farms that may be affected by the rule. We have been working with NASS and they have provided us additional information that we are reviewing to incorporate into the assessment. We hope to have revised estimates by early June to share with you, and plan to send the package officially shortly thereafter.

In the meantime, if you have other specific concerns/comments/suggestions on the DRAFT copy of the proposal, we would like to meet to address them. If you can provide those to us by May 31, we can meet with you in June to discuss them and the count of farms covered by the rule.

Thank you! Have a great Memorial Day weekend!
